(54) WATERPROOFING APPARATUS FOR CABLE DUCT MOUTH

(57)Abstract:

PROBLEM TO BE SOLVED: To obtain a waterproofing apparatus for cable duct mouth excellent in fixing workability and applicable to large size cables as well as small size cables.

SOLUTION: The waterproofing apparatus for cable duct mouth comprises an outer circumferential seal member having a semicircular groove 11 corresponding to the outer circumferential profile of a cable C and an outer circumferential part corresponding to the inner wall of a cable duct, a central seal member 20 having a semicircular groove 21 corresponding to the outer circumferential profile of cable C, a pair of flanges 30 having profile substantially identical to that at the end part of outer circumferential seal member, and bolts 42 and nuts 43 for holding the outer circumferential seal member integrally while clamping between the flanges 30.
